## E.FLEX Portable Solar Panel Collection

## PORTABLE

Featuring frameless lamination and lightweight construction, these are the easiest panels to store, transport, and setup, that you will find on the market.

## VERSATILE

These E.FLEX panels can be easily integrated with a wide array of off-grid solar systems, and are plug-and-play friendly with Renogy Phoenix Powerstations.

## EFFICIENT

High-efficiency monocrystalline solar cells offer greater power output per surface area, and the built in kick-stand allows users to optimize the angled position to capture the most sunlight.

## DURABLE

Industrial-strength ETFE film and rugged polyester canvas provide lasting durability against the harshest of weather conditions.
